

# Banking System Rest Api

## Overview

Rest Api for banking system web application

## Security

| Type   | Name       | Scopes |
|--------|------------|--------|
| apiKey | bearerAuth |        |

## Paths

### *GET* /api/customer/{id} Get customer details

Get Customer details by customer id.

#### Parameters

| Type | Name                  | Description | Schema          |
|------|-----------------------|-------------|-----------------|
| path | id<br><i>required</i> |             | integer (int64) |

#### Responses

| Code | Description                                 | Links    |
|------|---|----------|
| 200  | Success<br><br><i>Content</i>               | No Links |
| 400  | Bad Request<br><br><i>Content</i>           | No Links |
| 500  | Internal Server Error<br><br><i>Content</i> | No Links |

## PUT /api/customer/{id} Update customer

Update customer details

### Parameters

| Type | Name                  | Description | Schema          |
|------|-----------------------|-------------|-----------------|
| path | id<br><i>required</i> |             | integer (int64) |

### Responses

| Code | Description                                 | Links    |
|------|---|----------|
| 200  | Success<br><br><i>Content</i>               | No Links |
| 400  | Bad Request<br><br><i>Content</i>           | No Links |
| 500  | Internal Server Error<br><br><i>Content</i> | No Links |

## DELETE /api/customer/{id} Delete customer and related accounts

Delete customer

### Parameters

| Type | Name                  | Description | Schema          |
|------|-----------------------|-------------|-----------------|
| path | id<br><i>required</i> |             | integer (int64) |

### Responses

| Code | Description                   | Links    |
|------|-------------------------------|----------|
| 200  | Success<br><br><i>Content</i> | No Links |

| Code | Description                             | Links    |
|------|---|----------|
| 400  | Bad Request<br><i>Content</i>           | No Links |
| 500  | Internal Server Error<br><i>Content</i> | No Links |

## **GET /api/customer** Find all customers

Gets details of all the customers

### Responses

| Code | Description                             | Links    |
|------|---|----------|
| 200  | Success<br><i>Content</i>               | No Links |
| 400  | Bad Request<br><i>Content</i>           | No Links |
| 500  | Internal Server Error<br><i>Content</i> | No Links |

## **POST /api/customer** Add a Customer

Add customer

### Responses

| Code | Description               | Links    |
|------|---------------------------|----------|
| 200  | Success<br><i>Content</i> | No Links |

| Code | Description                                 | Links    |
|------|---|----------|
| 400  | Bad Request<br><br><i>Content</i>           | No Links |
| 500  | Internal Server Error<br><br><i>Content</i> | No Links |

## ***POST* /api/auth/login Authenticate User**

Authenticate User using username and password

### *Responses*

| Code | Description                                 | Links    |
|------|---|----------|
| 200  | Success<br><br><i>Content</i>               | No Links |
| 400  | Bad Request<br><br><i>Content</i>           | No Links |
| 500  | Internal Server Error<br><br><i>Content</i> | No Links |

## ***GET* /api/admin/employee Find All Employees**

Find All Employees

### *Responses*

| Code | Description                   | Links    |
|------|-------------------------------|----------|
| 200  | Success<br><br><i>Content</i> | No Links |

| Code | Description                                 | Links    |
|------|---|----------|
| 400  | Bad Request<br><br><i>Content</i>           | No Links |
| 500  | Internal Server Error<br><br><i>Content</i> | No Links |

## ***POST* /api/admin/employee Create User**

Create New User

*Responses*

| Code | Description                                 | Links    |
|------|---|----------|
| 200  | Success<br><br><i>Content</i>               | No Links |
| 400  | Bad Request<br><br><i>Content</i>           | No Links |
| 500  | Internal Server Error<br><br><i>Content</i> | No Links |

## ***POST* /api/account Create Account**

Create Account

*Responses*

| Code | Description                   | Links    |
|------|-------------------------------|----------|
| 200  | Success<br><br><i>Content</i> | No Links |

| Code | Description                                 | Links    |
|------|---|----------|
| 400  | Bad Request<br><br><i>Content</i>           | No Links |
| 500  | Internal Server Error<br><br><i>Content</i> | No Links |

## ***POST* /api/account/transfer Transfer Money**

Transfer Money from one account to an another account

### *Responses*

| Code | Description                                 | Links    |
|------|---|----------|
| 200  | Success<br><br><i>Content</i>               | No Links |
| 400  | Bad Request<br><br><i>Content</i>           | No Links |
| 500  | Internal Server Error<br><br><i>Content</i> | No Links |

## ***POST* /api/account/link Link Customer with account**

Link Customer with the requested account

### *Responses*

| Code | Description                   | Links    |
|------|-------------------------------|----------|
| 200  | Success<br><br><i>Content</i> | No Links |

| Code | Description                             | Links    |
|------|---|----------|
| 400  | Bad Request<br><i>Content</i>           | No Links |
| 500  | Internal Server Error<br><i>Content</i> | No Links |

## GET /api/auth/logout Logging Out

Logging Out

Responses

| Code | Description                             | Links    |
|------|---|----------|
| 200  | Success<br><i>Content</i>               | No Links |
| 400  | Bad Request<br><i>Content</i>           | No Links |
| 500  | Internal Server Error<br><i>Content</i> | No Links |

## GET /api/admin/employee/{id} Find an Employee

Find an Employee with the id

Parameters

| Type | Name                  | Description | Schema          |
|------|-----------------------|-------------|-----------------|
| path | id<br><i>required</i> |             | integer (int64) |

Responses

| Code | Description                             | Links    |
|------|---|----------|
| 200  | Success<br><i>Content</i>               | No Links |
| 400  | Bad Request<br><i>Content</i>           | No Links |
| 500  | Internal Server Error<br><i>Content</i> | No Links |

## ***DELETE* /api/admin/employee/{id} Delete Employee**

Delete Employee using the id

### Parameters

| Type | Name                  | Description | Schema          |
|------|-----------------------|-------------|-----------------|
| path | id<br><i>required</i> |             | integer (int64) |

### Responses

| Code | Description                             | Links    |
|------|---|----------|
| 200  | Success<br><i>Content</i>               | No Links |
| 400  | Bad Request<br><i>Content</i>           | No Links |
| 500  | Internal Server Error<br><i>Content</i> | No Links |

## GET /api/account/statement Get account statement

Get account statement for the given date range.

### Parameters

| Type  | Name                                    | Description | Schema          |
|-------|---|-------------|-----------------|
| query | <b>endDate</b><br><i>required</i>       |             | string (date)   |
| query | <b>accountNumber</b><br><i>required</i> |             | integer (int64) |
| query | <b>startDate</b><br><i>required</i>     |             | string (date)   |

### Responses

| Code | Description                                 | Links    |
|------|---|----------|
| 200  | Success<br><br><i>Content</i>               | No Links |
| 400  | Bad Request<br><br><i>Content</i>           | No Links |
| 500  | Internal Server Error<br><br><i>Content</i> | No Links |

## GET /api/account/balance/{accountNo} Get Account Balance

Get Account Balance

### Parameters

| Type | Name                                | Description | Schema          |
|------|-------------------------------------|-------------|-----------------|
| path | <b>accountNo</b><br><i>required</i> |             | integer (int64) |

### Responses

| Code | Description                             | Links    |
|------|---|----------|
| 200  | Success<br><i>Content</i>               | No Links |
| 400  | Bad Request<br><i>Content</i>           | No Links |
| 500  | Internal Server Error<br><i>Content</i> | No Links |
